

# VAJIDALI KHAN

MOBILE APPLICATION DEVELOPER

## SUMMARY

Mobile Application Developer with 7+ years of experience building and deploying high-performance iOS and Android applications. Expert in the **React Native** ecosystem, REST API integration, and performance optimization. Proven track record in managing end-to-end App Store/Play Store releases and implementing enterprise-grade security (SSL Pinning, Obfuscation). Strong advocate for clean code, unit testing, and scalable architecture.

## WORK EXPERIENCE

**QBS BUSINESS SERVICES LLC**  
SOFTWARE DEVELOPER

DUBAI, U.A.E  
SEPT 2024 - PRESENT

Responsibilities:

- **Release Management:** Manage end-to-end deployment for Apple App Store and Google Play Store, ensuring 100% compliance with platform guidelines.
- **System Integration:** Integrate third-party plugins and REST APIs to improve system functionality and cross-platform compatibility.
- **Quality Assurance:** Lead comprehensive code reviews and enforce coding standards to identify defects early and maintain a high-quality codebase.
- **Maintenance:** Resolve technical issues and perform ongoing optimization to ensure stable application performance.

**BUDDYBOSS DMCC**  
MOBILE APPLICATION DEVELOPER

DUBAI, U.A.E  
MAR 2021 - SEPT 2024

Responsibilities:

- **Modular Architecture:** Engineered and published internal **NPM packages**, streamlining the development workflow and ensuring component reusability across multiple project workstreams.
- **Enterprise-Grade Security:** Hardened application security by implementing **SSL Pinning** and **Code Obfuscation**, effectively mitigating risks related to man-in-the-middle attacks and reverse engineering.
- **EdTech Integration:** Engineered complex LMS modules, including quizzes and content delivery, for global community platforms.
- **QA & Reliability:** Enhanced app stability through **Jest** unit testing and **Detox** E2E testing, reducing production defects.
